Reading Club

Learning through Activities

Visit of Goethe Library

TEACHERS TRAINING

The German teachers team spend the whole Saturday 21st January 2023 at Goethe Institute Cairo. There was a special teachers training about the A2 & B1 language exams for students.

It was an important preparation for the student language certificates. The German teachers practiced how to prepare the students for the different parts of the German language exam, like reading, listening, writing and speaking.

Our goal is to bring the German language to a high level so that our students will have good chances for the future.

READING CLUB

The German Reading Club is an integral part of the German department at EBIS.

During breaks students spent their time by reading books on different levels.

The goal is to learn a good reading technique and to be prepared for the German Reading Competition. Furthermore, we want to encourage the interest in reading and to improve the German language understanding and pronunciation.

The Reading Club is for year 4 to year 8 students.

LEARNING THROUGH ACTIVITIES

Activities can make an important contribution to language education for all students. The targeted inclusion of movement can support the learning of the German language for schoolchildren in a motivating, creative and playful way. At the same time, the social community within a learning group or class can be strengthened for all students.

Activities increase their ability to concentrate and improve listening comprehension. Students develop more easily their personal qualities and personality, tolerance and sociability.

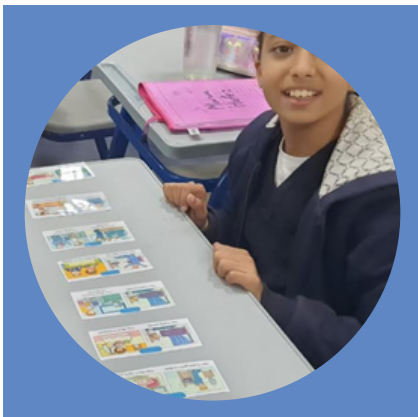

VISIT OF GOETHE LIBRARY

In January 2022 we went with the German students of year 5 to visit the library at Goethe Institute in Dokki.

As part of the EBIS German Reading Club we wanted to show how a library is working. Through activities the students learned the system of the library and saw the modern equipment.

The visit end with a small competition about the new learned information.
